SSUED EVERY TUESDAY MORNING IN TIME FOR THE MAILS

DYNAMITE DISCOVERY.

ENGLISH POLICE UNEARTH A MANUFACTORY OF EXPLOSIVES.

THE MEN CONNECTED THEREWITH ARRESTED.

Sufficient Nitro-Glycerine Seized to Blow up the Entire Kingdom—England Intensely Excited.

BIRMINGHAM, April 5.—The city police made a raid upon suspected localities in Ledsam street and discovered a Fenian's nitro-glycerine factory in full operation. The apparatus for preparing and mixing the explosive compound was constructed on scientific principles, and with all the cunning and craft which clearly showed its inventor to be not only a thorough scholar in chemistry and machinery, but also an adept expedients for avoiding notoriety and preventing discovery. Among the noteworthy features of the place was a shrewdly-devised method for carrying fumes up the chimney and consuming the odors. It is learned that the premises in Ledsam street were taken two months ago by a man named Whitehead, an Irish-American, who had a sign hung out in front of his place indicating that his business was that of a paper hanger. Whitehead himself was taken into custody when the police made the descent on the den, and is now in close confinement. A considerable quantity of nitro-glycerine was seized by the officers at the same time. Information is now in the hands of the detectives that tends to demonstrate that this place is the central manufactory of explosives and the most important depot of all infernal contrivances in the kingdom. Whitehead, who is described as a man about 25 years of age, with a dark complexion and with a marked American accent, has been in the habit of purchasing supplies of nitro-glycerine and acids which were necessary to run the business.

LONDON, April 8.—The exciting events of the day crowded each other so fast that their importance could scarcely be realized until the later hours to-night. A complete summing up of the surprises includes unearthing of the most important dynamite factory ever discovered, the arrest of four ruin-breeders in London and one in Birmingham, an attempt on the government magazine in Ireland, reception of an incendiary letter in London and the discovery of an astounding and audacious scheme of Nihilists to blow up the Czar's residence at Moscow. Excitement over these affairs is not confined to government officials, but it is apparent on the street to even the most casual observer. The prompt action of the government officers is highly commended. The post-office and neighboring government property is placed under an increased guard, and the royal residence at Windsor is given a

LARGE FORCE OF SENTINELS,

Sent thither in a private manner. This precaution was made necessary because the government officers learned late last night that, in connection with the discovery of a dynamite factory at Birmingham, it seems the conspirators were already on the way to Windsor from Birmingham. It is stated in official circles that there is reason to believe that the whole incendiary and dynamite conspiracy here and in America will now be laid bare, and the number of arrests shortly increased. A man was arrested last night near Fleet street, corner Strand, giving the name of Ormund, and stating that he was a medical student. He subsequently said that his correct name was Norman. The first inquiry for rooms was made by an elderly man. A

BOX OF EXPLOSIVES

Was taken to Norman's lodging, by a person of a rakish appearance, who looked more like a tramp or a street idler than a porter or a friend of a student. It is believed that this individual and elderly man have been captured in the person of two men arrested at Lambeth. One of these men had in his pockets and sewed up in his clothing, a large sum of money, a portion of which was in American coins, and connected many Irish-Americans with the plot. One Lambeth prisoner had secured lodgings in the name of Wilson. His movement excited so much suspicion among his neighbors that he

LEFT HIS ROOM YESTERDAY,

Saying it was his intention to go to Hampton. When he returned at noon to-day he was surprised to find five detectives awaiting him. Norman undoubtedly came direct from Birmingham, where he was stopping just over the office where is printed the *Court Circular*. The proprietor of that sheet recently received a letter containing dire threats, the origin of which he has now no difficulty in tracing to the prisoner. The fourth arrest was Henry Walton, taken into custody to-night. He came from the United States two weeks ago. He was found at his

ROOMS AT THE AMERICAN EXCHANGE.

He made no resistance. Walton is in jail at Scotland yard.

No less a sensation was created in commons when the arrests were announced, elsewhere. Sir Wm. Harcourt, home secretary, in a brief speech outlining the facts, confirmed what had, up to this time been mere rumor, that Norman had been arrested. He added that 150 lbs. of highly explosive liquid had been found in Norman's quarters, stored in skilfully devised rubber bags. He also confirmed the discovery of a dynamite manufactory at Birmingham, and gave

PARTICULARS OF THE AFFAIR

Substantially as related in these dispatches. He said further, that considerable amounts of the same kind of explosives had been discovered in the rooms of the Lambeth prisoners, and that part of the money on one of these men was in American bank notes and that there was connection between the arrest at Birmingham and London, as shown by incidents which had just come to light. The secretary, during the afternoon, sent a dispatch to Birmingham asking the authorities to remand Whitehead for a week. The same action will be taken here under the same directions in the case of Norman. The magistrate at Howe street waited until late in the afternoon for instructions in regard to Norman and his two Lambeth accomplices, and finally received a telegram from the home secretary announcing that no formal charge would be brought against the prisoners to-day, and they were accordingly remanded.

NORMAN HAD PLENTY OF EXPLOSIVES.

LONDON, April 3.—The rubber bags found in Norman's quarters contained nitro-glycerine sufficient to blow up any town in the kingdom. The police believe he was engaged in a plan to carry out dynamite doctrines, which are particularly fostered by O'Donovan Rossa. Henry Dalton, the man of short stature and pock-marked, was an occasional caller at Bowles' American reading room, No. 14 Strand. This arrest was effected owing to information derived from papers found on the prisoner. It is believed by the authorities that Dalton is an emissary of the dynamite faction in the United States. The man arrested with Wilson at Lambeth is named Gallagher. Papers found on him prove his connection with Whitehead. The Woolwich authorities say that the compound at Lambeth is nitro-glycerine, and is identical with that found in Norman's quarters. Gallagher's portmanteau was closely packed with explosives, acids, ten gallons nitro-glycerine and mixed acids, a cooling machine, hydrometers and a variety of chemical appliances. Whitehead paid £27 for one consignment of glycerine.

Gallagher declares himself an American citizen. When arrested, nearly £900 in English and American notes were found on him. He is thirty years old. The explosives at Lambeth were also taken to Plumstead Marsh, after being tested at Woolwich. The nitro-glycerine in Norman's box is made by persons who had little experience in the manufacture of such a dangerous compound, and was therefore peculiarly liable to explode. The arrests to-day were connected with the arrests on Thursday in Liverpool, of Dan Deasy and Patrick Flanagan.

LONDON, April 5.—The police believe that the Birmingham factory is one of a series which exists in great towns. Evidence is forthcoming that the persons arrested were connected with the Invincibles. The dynamite used in the Westminster explosion undoubtedly was made at one of the factories of the society. Norman's box was barred outside with wood, for the better protection of the contents, and was fitted with handles. After it had been tested at Woolwich, the box was taken to the magazine at Plumstead Marshes, where it will be kept in water until the officials can safely dispose of the contents. It is believed that the name of Whitehead is an alias, and that the police know his proper name but wish to keep it secret for the present. Thousands visited the house in Ledsam during the day. The stock in the house consisted of fourteen carboys holding ten gallons each of sulphuric and nitric acid, and a great number of cans of glycerine.

LONDON, April 5.—There is renewed excitement in government circles this afternoon because of the report which came from Newry, Ireland, where are situated a large government barracks, that a sentinel standing guard over the powder magazine last night challenged a man who was discovered scaling a wall. The sentry fired a shot and gave an alarm. Search for the intruder was fruitless, buf the guard is not doubted and orders were issued to take every precaution to prevent surprise.

LONDON, April 5.—Irish police have made two further arrests in the suburbs of Lambeth. In connection with the man arrested last night. The latter is now said to be an American. Nearly half a ton of nitro-glycerine has been seized in London already.

LONDON, April 5.—A semi-weekly newspaper called the "City Press," in an edition yesterday evening, announced that it had received a letter without signature, in which the writer threatened to blow up the government office. The affair was referred to the police and late last night detectives, assisted by members of the Irish secret service, succeeded in arresting a man who had in his possession a quantity of stuff supposed to be dynamite. This arrest caused a decided sensation. The detectives had followed the prisoner from Manchester, as he appeared to be a suspicious character, and when the letter appeared he was at once arrested, being then in the vicinity of Fleet street. Now he is at the Bow-street station to await the report of army officials at Woolwich, who are engaged in a

CHEMICAL EXAMINATION

Of the suspected package. The police regard the arrest as a most important one. This is evidenced by the fact that since it was made precautionary measures have been renewed. Especial attention is now being given to the protection of buildings in which are located the offices of the ministry and all public officials. Extra sentinels are posted at Windsor castle and at the postoffice. Policemen and detectives are keeping a close watch on suspicious localities.

WHITEHEAD ARRAIGNED.

In accordance with a request from the Home office, Whitehead was remanded for a week. The charge against him is having in his possession explosive compounds and materials in violation of the law. At the examination evidence was given showing that the police detectives had followed Norman, who was arrested in London, from Whitehead's house in this city, and that he took away from Whitehead's a box. Among the other materials seized at the paper-hanger's house were eight gallons of mysterious liquid in tins, some sulphuric acid and a quantity of nitro-glycerine. The prisoner when arraigned assumed on indifferent air and also refused to answer questions.

NITRO-GLYCERINE IN RUBBER BAGS.

The rubber bags found in Norman's quarters contained nitro-glycerine sufficient to blow up any town in the Kingdom. The police believe he was engaged in a plan to carry out the dynamite doctrines, which are particularly fostered by O'Donovan Rossa. Henry Dalton is a man of short stature and pock-marked. He was an occasional caller at

BOWLES' AMERICAN READING ROOM,

No. 14 Stand street. This arrest was effected owing to information derived from papers found on other prisoners. It is believed by the authorities that Dalton is an emissary of the dynamite faction in the United States. The man arrested with Wilson at Lambeth is named Gallagher, and papers found on him prove his connection with Whitehead. The Woolwich authorities say that the compound found at Lambeth is nitro-glycerine, and is identical with that found in Norman's quarters. Gallagher's portmanteau was packed with explosives.

A BIG CONSIGNMENT.

Whitehead paid £27 for one consignment of glycerine. Gallagher declared himself an American citizen when arrested, and nearly £900 in English and American notes were found on him. He is 30 years old. The explosives at Lambeth were also taken to Plumstead Marsh after being tested at Woolwich. The nitro-glycerine in Dalton's box was made by persons who had but little experience in the manufacture of such a dangerous compound. The arrests yesterday are connected with the arrests on Thursday in Liverpool of Daniel Deasy and Patrick Flanagan. It is rumored that the police arrested another man with whom compromising documents were found.

A MINE UNDER THE KREMLIN.

FRANKFORT, April 5.—The *Gazette* publishes a special from Moscow stating that a large mine has been discovered, connecting with the Kremlin, where the coronation of the czar is to take place. The telegram also states that a request has been wired to St. Petersburg for a hundred sappers to be sent to Moscow at once for the purpose of destroying the mine.

LONDON, April 6.—The dynamite prisoners were arraigned at Bow street today and charged with having in their possession, with felonious intent, explosive materials. The detectives gave a full history of their chase after Norman, and a number of points which, in their opinion, prove his guilt, and to the intimate relations between him and the other prisoners. It transpired that the man whom Norman alleges hired him as clerk is Fletcher. The detectives deposed that on Norman's person was found a telegram signed Fletcher. At the conclusion the prisoners were remanded without bail, although their counsel strongly urged that bail be allwed.

The evidence, both direct and circumstantial, was given almost entirely by detectives. They deposed that they followed Norman from the dynamite factory in Birmingham to his hotel in this city. They dogged his footsteps on Wednesday, and finally arrested him late that night. When made a prisoner he declared he had no idea what the box contained; yet in his pockets were keys which exactly fitted the box. The detectives also found on him a five-pound note with the stamp of March 10 printed thereon. Among other articles taken from him was a map of London and an envelope addressed to Gallagher, American Exchange office. He had in his pocket a telegram directing him to call on Fletcher, Charing Cross hotel. Fletcher is the person who, according to Norman, engaged him to carry the dynamite box taken from him.

LONDON, April 6.—The four men arrested in this city within the past forty-eight hours on suspicion of being concerned in plots to blow up government buildings, were arraigned in Bow Street court this morning. Justice Ingram, who presided, informed them they were brought to the bar on the charge of having in their possession explosives with intent to use the same for felonious purposes. The statute provides that persons convicted of this crime shall be liable for punishment for two years at hard labor. The prisoners were put down on the charge sheet as Norman, aged 22; Gallagher, 23; Wilson, 22; Dalton, 39. Dalton is also known by the alias of John O'Connor. When the prisoners marched into the dock a stalwart policeman was stationed behind each. They are all intelligent men, well dressed and have every appearance of being not only respectable but educated.

In regard to Wilson and Gallagher, the evidence of the policemen who arrested them was not less convincing. They deposed when they inquired of Wilson what he had in his portmanteau, he curtly replied: "You had better look." They examined it and found rubber bags containing the liquids already described. Gallagher denied all knowledge of those bags or their contents. Although Gallagher was arrested in Nelson Square he gave his address as Charing Cross hotel. It was remarked at this point in the proceedings the clue to Gallagher's connection with Norman was that the envelop found on Norman was addressed to Gallagher, and Fletcher's dispatch to Norman asked him to call at the place which Gallagher claimed as his residence. The police stated further they found at Gallagher's rooms rubber bags like those in the portmanteau, besides a quantity of money and a letter of credit for $6,000, dated New York, March 13th. Gallagher here interposed with the remark that the much talked of liquid was hydrate chloral. If rubber bags were explosive that was indeed a new discovery.

In respect to the arrest of Dalton, alias O'Connor, the police testified that he refused to give any address except that of Bowles' reading room, 14 Edward place, Fullhorn road. Search was made, however, and some pieces of fuse and a thermometer were found. Dalton here said contemptuously, "The fuse you found was merely a cigar lighter." The police continued the search and found the whereabouts of Dalton and the lodging house. They found upon him a diary which contained a recipe for the manufacture of fulminate mercury and other chemical compounds. Dalton here reiterated a denial that he had the slightest acquaintance with the other prisoners, or any knowledge of them.

Norman's counsel, Wm. D. Smythe—the other prisoners having no legal advisers, except as he acted incidentally for them—made little comment on the testimony, and confined his remarks to an urgent appeal on the question of bail, which he asked to be allowed for his client. He said Norman had been in the country only about a week. Judge Ingham refused to grant the request of Gallagher and Norman, that their money be restored to them, and closing the preliminary examination said he would remand them until Thursday without bail. Additional precautions will be taken to guard the Bow street prison, and the prisoners Norman, Gallagher, Wilson and Dalton were carefully watched.

It will be held that Norman was in entire ignorance of the fact that the box contained terrible explosives. It is alleged by parties who claim to have some knowledge of Norman that he is of respectable birth and education, and came to England expecting to find employment.

No arrests made in London except the four reported yesterday.

GLASGOW, April 6.—The statement is made that the arrests at Liverpool furnished the police with a clue to the cause of the recent explosion in Glasgow. According to the latest information it was intended that these explosions should be on a comprehensive scale. The plot included the destruction of the canal and viaduct, and they were partially successful. Several detectives have started for Liverpool to work out the evidence.

LONDON, April 6.—The house in Nelson Square, at Lambeth, where Wilson and Gallagher, the dynamite fiends, were arrested, has been placed under police surveillance, and all persons entering are carefully scrutinized, and notes are taken of their personal appearance. The police hope in this way to secure evidence upon which to base further arrests, as they are convinced that numerous accomplices of the men already in custody are at large. One of the evidences of this fact just made public is that large sums of money at regular intervals have been deposited in the Bank of England to the credit of the men held in custody in the Dublin jail for the Phœnix Park murder and other murders. The authorities have made rigorous search for the source of these deposits, but are not yet able to discover it. Henry Dalton, also arrested at the American Exchange yesterday, for connection with the dynamite plot, reached England, according to information obtained from police sources to-day, some time in February. In appearance he was unassuming, and maintained a quiet, reserved demeanor while loitering about Bowles' American reading room. He appeared to be more interested in English papers than American papers, and was especially concerned to get the latest news. It is understood that Norman's counsel will base their defense on the plea that he was an innocent agent, and was employed in the capacity of clerk for a limited time of a man from the United States, who was not arrested.

MORE DYNAMITE TRIALS.

CORK, April 6.—Carmody, O'Herlihy and Featherstone, the men arrested on a charge of being dynamite carriers, had a re-examination to-day, conducted with the utmost privacy. They were further remanded for a week, but bail was refused. Featherstone created a sensation by declaring that for himself he was a citizen of the United States, and that he had placed himself and his case in the hands of the United States consul. He expected through that official, redress for the indignity heaped upon him.

THE ACT OF A FOOL.

ROME, April 6.—An explosion of a powder depot occurred at Moricane, a small village just out of Passo Corez. Two hundredweight of powder, to be used in blasting preliminary to the construction of an aqueduct, was stored in the cellar of a tenement in which sixty workmen had quarters. One of these men, having occasion to go into the cellar, lighted a match and, as it was burning out, threw it down. A terrific explosion followed. The whole house was blown into the air. The concussion broke all the windows in the neighborhood. Only a few persons in the house at the time escaped with their lives. All were badly mangled.

FRANK HASTINGS was awarded First Premium for Thoroughbreds at the State Fair of Oregon, in 1880; also, at the British Columbia Provincial Fair, held at Victoria in September, 1882, the Gold Modal for the Best Stallion exhibited.

Victoria, B.C., Jan. 15th, 1883. ja18dw6m

NOTICE TO

HORSE BREEDERS.

"PLOUGHBOY,"

WINNER BY TWO SUCCESSIVE SEASONS of the "Irving" Challenge Cup, is now rising 5 years old, and will, during the season of 1883, stand at owner's stables, Nicola Lake, on the following terms and conditions:—

FEES—TWENTY DOLLARS EACH MARE, WHICH COVERS INSURANCE, THE SAME TO BE PAID WHEN MARE IS PROVED TO BE WITH FOAL.

Season commences 1st of May and ends on last day of July.

"Ploughboy" is a dark, dapple bay, stands 17 hands high, proportionably built, being also a horse of splendid temper, action and powerful muscle.

"Ploughboy" was got by "Wellington," and out of the celebrated brood mare "Nellie," weighing 1,555 lbs. The breeding of both sire and dam is too well known to require repetition.

Yearling Colts got by "Ploughboy" are to be seen at Nicola Valley, and will bear favorable comparison with the get of any other first-class sire.

The owner will not be responsible for accidents to mares (or foals) sent to this horse.

JOHN GILMORE,
Nicola Lake.
March 16th, 1883. mh27dw2m

THE PURE BRED

CLYDESDALE STALLION

GLENGARRY.

SUNDAY MORNING, APRIL 8TH, 1883.

L. P. FISHER, Advertising Agent, 21 Merchants Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

A STRANGE COINCIDENCE.

On looking over the return to an order of the house of work done in the district of Esquimalt during 1882, lately printed, it is impossible to avoid observing that the period at which a considerable portion of the work was done was either immediately before or immediately after the late elections. Of course public works have to be carried on at all seasons of the year, but the election season, when there is one, is peculiarly propitious. It does not much matter whether the work was given out a little before or a little after the event; for there are always people who will put perverse constructions on such matters in any case, but there can be no harm in observing a coincidence, and many valuable discoveries have been made by such comparisons. The coincidence in this case is that the dates at which about $2000 out of $3000 worth of work was executed in the Esquimalt district, hover closely round that of the late election; some a little before and some a little after, but still within the bounds of that propitious season we have alluded to, when liberal views of public necessities and expenditure are apt to thaw the purse strings of even the most economical government, especially when they have cause to fear that they may not long be spared to administer the finances of an ungrateful public.

The Kootenay Bill.

To THE EDITOR:—The preamble of Mr. Wilson's letter in *The Colonist* of yesterday would lead one to suppose that because "no proposition was ever proposed, no matter how meritorious but the people would oppose," it follows that our government would be right in passing the "Kootenay Bill."

It is my opinion if our Canadian Pacific railway was constructed, not a dollar's worth of the trade of Kootenay would go to Portland, nor any other city of the States. No;—Kicking Horse Pass would be nearer to the Kootenayites, and if it were not, the tariff difficulties would prevent anyone in Kootenay from trading with the cities of the Republic.

Small as the population of Kootenay is, they were obliged, no later than last year, to pay the Dominion government $3000, (or thereabouts) duties, because the people of Kootenay were obliged to trade with their American friends.

Now that there is a prospect of the Kootenayites and the miners who will crowd in there to do their trading with the people of Canada, our American friends step in to give us a show. Their generosity makes them see what will benefit themselves, and no doubt serve us.

One would suppose Mr. Wilson thinks with some of the astronomers of the past, who thought that the mountains and valleys of Kootenay were in the moon.

Seven hundred and fifty thousand acres of the richest mineral lands of the province locked up from miners who have known for fifteen years the wealth of these mines, is nothing? I will be asked why did those miners not work those mines during 15 years? Because they wanted the C.P.R. to Kicking Horse Pass. But why ask questions? Let our Government give the company all they want, if they carry out the projects embodied in the bill now before our legislature. Give them what is proposed by our representatives that they should get, on condition that they do not take the trade of the greater part of the province to Washington and Oregon terrtories; on condition that the privileges granted the company become null and void if they connect any portion of the Kootenay railway or steamboat navigation with any railway or line of steamers on or in America. In my opinion it has not the ring of common sense that this company will expend $60,000 in making a road to get their supplies from Kamloops and Okanagon, when they can be sure to get their supplies at Sand Point, a station on the American Northern Pacific, which runs only 50 miles from where the company are to make the 40 miles of railway at Kootenay Lake. A PIONEER.

A Card.

To THE EDITOR: I hear some of Wang Foong's friends are trying to get him a new trial. He was sentenced to fourteen years for manslaughtering my brother. I ask most respectfully that the public will not hear of such a thing as a new trial for this man. His guilt was established to the satisfaction of the judge and jury. There was no doubt in any one's mind that he killed my poor brother. But Wang Foong he has got money and rich friends. If they can find a little hole or flaw in the indictment they will make it big enough for Wang Foong to crawl through it out of prison. His conviction has given the Chinamen a high idea of British law. Every man he now knows if he has an injury he can go to law and have the man who hurt him sent to prison. If Wang Foong gets out again this feeling of security will vanish.

I hope, Mr. Editor, that Wang Foong, the guilty man, will not escape from a punishment he so richly merits.

ON CHING.

VICTORIA, March 26, 1883. 1m

NEW CLOTHING.

Our Spring and Summer Stock just arrived comprising Men's Boys' and Youths' Scotch Tweeds and English Diagonals, made in first-class styles. Also, Suits and Pants in extra large sizes, and a complete line of Furnishing Goods.

I. L. Store, next to Goodacre & Dooley's. T. L. DAVIES,
*2m Manager.

POPULARITY.

Why they are popular. The reason that National Pills are so universally popular is because they are certain in their action, mild and painless in their operation, and never leave the bowels constipated. They are sugar-coated, and contain no mineral poison. (35)

BUDWEISER.—A shipment of Budweiser just received by Neufelder & Ross. *

EUROPE.

ROME, April 4.—The story of a triple defensive alliance of Germany, Austria and Italy, against France, now generally looked upon as a feeler, has been made the occasion, by the press of Italy, for many anti-French articles. The *Journal de Rome*, clerical paper, says that from the Baltic to the Island of Sicily the French republic has none but enemies. If she but moves a finger she is at the mercy of her enemies. If there is the slightest *casus belli* Italy will not fail, when the chief of the alliance gives the smallest sign, to find such cause on a few moments' notice.

PESTH, April 4.—It is reported that the triple alliance formed the subject of discussion in the lower house of the diet to-day An interpellation was introduced whether such alliance really existed. It was stated that the question would have to be referred to Herr Von Iisza, president of the council, before an answer could be given.

COPENHAGEN, April 4.—German socialists here just concluded a three days' secret congress. Sixty members were present, including Babel, Liebknicht and Havenclerer. All the members of the Reichstag were present, with delegates from Paris and London. The congress decided to signally oppose, at the elections in 1884, Bismarck's policy, chiefly in regard to his social programme, and force a fight against capital. German police believe that a congress in being held in Switzerland.

LIMERICK, April 4.—A public meeting was held yesterday for the purpose of giving to Parnell a substantial testimonial of the estimation in which he is held. It proved to be a fiasco. Only forty persons subscribed to the projected fund of raising the incumbrance on his farm, and the scheme was temporarily abandoned.

DUBLIN, April 4.—The trial of the prisoners charged with the Phœnix park murders and other crimes, which was expected to begin Thursday next, will be postponed for a few days, owing to the fact that sufficient funds had been raised for conducting the defense.

CORK, April 4.—The police attach much importance to the fact that O'Herlihy, arrested an a charge of conspiracy to murder, received an order for £20 from America, which was stopped at the bank, however, owing, it is thought, to the action of the government.

LONDON, April 5.—In the House of Commons, Childers, chancellor of the exchequer, presented the budget for the financial year ended March 31. The total revenue for the year was £89,000,000. This exceeds the estimates by £4,004,000. The expenses of the war in Egypt include the amount contributed to defray the cost of the Indian contingent. There fell to the present administration an inheritance of £855,000, war charges, which have been paid out of the taxes of £10,700,000 for war chaiges. He had no arrears, whatever, to report on account of the war expenditure, as incurred by the present government. For the coming year he estimated the expenditures to be £85,879,000. The national debt is reduced £700,000. He expected to be able to further reduce it this year about £8,000,000, and he further expected to see the debt reduced in the next twenty years by £100,000,000. He proposed that the tax on railway earnings, where the fare is very small in amount, be abolished; that provision be made looking to a reduction in the rate of telegrams sent anywhere in the land to 6 d each, and that 3½ d of the income be removed. This last measure would, according to the speaker's estimate, reduce the revenue £2,135,000. Thus, the first report of the new chancellor was received with favor, and at its conclusion with loud and prolonged cheers.

LONDON, April 5.—Betting on the city and suburban handicap is 11 to 1 against Keene's Foxhall, 20 to 1 against Lorillard's Sachs, and 22 to 1 against Passaic.

DUBLIN, April 5.—At the trial of the prisoners charged with the Phœnix murders, a photograph of the man named Tynan, recently alluded to by the name of Tyner, will be produced. This photograph has been identified by Carey, the informer, and three others as that of "Number One." It is stated that a portion of the money with which Tynan was entrusted for distribution can be traced to the Invincibles. The government is in possession of an affidavit to the effect that Tynan and "Number One" are identical. Peter Carey, brother of James, is accepted as an informer.

CORK, April 6, 2 a. m.—It is rumored that the police have arrested another man, with whom compromising documents were found.

LONDON, April 6.—The stock of explosives discovered by the police at Whitehead's manufactory in Birmingham has been examined by the government inspector, who reports that he found among the other articles for the destruction of life and property, 120 pounds of nitroglycerine. The government has already taken action looking to an amendment of the law in regard to the possession of explosives. Wm. Harcourt, home secretary, announced this afternoon in the house of commons that on Monday he would introduce a bill to that effect, and would ask the house to facilitate the passage of the bill in order to secure its speedy enactment. The announcement of the government's intention to deal with the matter was received with cheers by the house.

PARIS, April 5.—Madame Charlenton was murdered to-day by her husband. The Charlenton family became notorious through a recent sensation at a seduction trial. The story of the case is that Madame Charlenton gave shelter and protection to a young lady, Fidelia DeMonastey, against an attempt of her mother to confine her in a madhouse. The young woman was taken by force from the Charlenton mansion by Carlos Lafit, natural son of Madame de Monastey, who is the widow of Francious Romignnero, the electrician.

LONDON, April 6.—An urgent whip is issued to Irish members to attend the session of commons on Monday next, sitting for business of utmost importance. Change will be taken up in connection with the efforts to pass a bill for criminal procedure of Irish members who fear an attempt will be made to saddle on Ireland the crimes by an act of permanent statute.

DUBLIN, April 6.—The *Freeman's Journal* says it is the duty of every honest and honorable Irishman to reprobate and denounce that species of deviltry which can only end in alienation of all good men from their support of the national cause, and the collapse, ruin, and disgrace of the cause itself.

ST. PETERSBURG, April 5.—Developments of the utmost importance are expected in connection with the coming great trial of nihilists in this city. It was originally believed that this trial would be the last of the kind on the list. Recent arrests, however, have made other nihilist trials probable, and it is the present intention to arraign newly-discovered plotters, either before the coronation of the czar or directly after. The accused have, with three exceptions, already pleaded guilty of belonging to a party which they assist in fact as well as in name, "The will of the people."

BELGRADE, April 6.—A violent popular demonstration occurred against the authorities of Grissu to-day. The people were ordered to disperse to their homes, but they refused. The mounted police were finally called upon to suppress the disturbance. The police, with drawn sabres, charged upon the crowd of men, women, and children, many persons being cut down and others trampled under the horses' hoofs.

ROME, April 5.—The powder depot at Passo Correz, for the use of engineers conducting operations there, exploded to-day. Forty persons were killed, and many injured, some fatally.

LONDON, April 5.—In the house of commons, Childers, chancellor of the exchequer, presented the budget for the financial year ended March 31. The total revenue for the year was £89,004,000. This exceeds the estimates by £4,004,000. The expenses of the war in Egypt include the amount contributed to defray the cost of the Indian contingent. There fell to the present administration an inheritance £855,000, war charges, which have been paid out of the taxes of £10,700,000 for war chaiges. He had no arrears, whatever, to report on account of the war expenditure, as incurred by the present government. For the coming year he estimated the expenditures to be £85,879,000. The national debt is reduced £700,000. He expected to be able to further reduce it this year about £8,000,000, and he further expected to see the debt reduced in the next twenty years by £100,000,000. He proposed that the tax on railway earnings, where the fare is very small in amount, be abolished; that provision be made looking to a reduction in the rate of telegrams sent anywhere in the land to 6 d each, and that 3½ d of the

BIRTHS.

On March 25th, at Hope, the wife of James Wardle of a daughter.

Supposed Fatal Fire.

At a quarter to one o'clock this morning the dwelling house of A. R. Howse, situated at the junction of Government and Douglas streets, was consumed with all its contents. It is feared that Mrs. Howse—who, during the absence of her husband, on the survey, occupied the premises alone—was burnt to death, as she was not seen afterwards. The house was the property of Mr. Alfred Fellows, who is absent in England, and was insured.

NEW WESTMINSTER.

(Special to The Colonist)

NEW WESTMINSTER, April 7, 1882.

A man named O'Connor, an importation from the Sound, was to-day brought before the magistrate's court charged with carrying concealed weapons. Sufficient evidence was given to warrant the prisoner being held, and the case was remanded for one week. O'Connor is supposed to be be more or less implicated in the recent burglaries that have given rise to so much uneasiness lately, and much satisfaction is expressed at his arrest.

This afternoon the Pitt River murder case was up for further hearing, and the three prisoners were committed for trial at the May assizes. Evidence was given fully proving their complicity in the murder.

The dead body of a Chinaman was today found in the woods beyond the city limits, and an inquest is now being held. The body is supposed to be that of a sick Chinaman who was taken out of town by two of his countrymen yesterday and left in the woods to die.

Steamer Enterprise for Victoria and Reliance for Yale left this morning at seven o'clock.

What Some People Say.

That Mr. Bowker offers his magnificent driving park for lease for a term of years.

That Hon. J. W. Trutch and W. C. Ward will sail on the 10th from San Francisco for Victoria.

That H. Rushton, defendant in the London divorce suit of Rushton vs. Rushton, (noted elsewhere) was for several years a clerk in the employ of the Bank of British Columbia in this city.

That we have good news for the public. Henry Mansell is still offering his well selected stock of boots and shoes at prices that cannot be met by any other house. His address is the B. C. boot and shoe store. *

That it should be remembered Mansell swept the prize board at the late B. C. show. His custom-made goods are the admiration of every one and the comfort of all who wear them. If you have tender feet, consult H. Mansell, at the B. C. boot and shoe store, where great bargains are offering. *

That the Victoria Transfer Company have imported a handsome two-horse phæton and a village cart. They have several other fine carriages on the way from Canada.

That the Port Townsend people propose to visit Victoria *en masse* on the 24th.

That Parnell will not come to America.

That the body of Prof. Palmer, who was murdered in Egypt, has been buried in St. Paul's Cathedral.

That the Queen cannot yet walk with comfort.

That boots and shoes seem to take unto themselves feet and walk away from the B. C. boot and shoe store, Government street, so rapid are the sales. *

That everybody plays on the Monarch billiard table at Commercial Hotel, Douglas and Government streets. *

That there is no truth in the report that the Kremlin is undermined.

That it is officially stated the Prince of Wales will not visit the United States.

That Patrick Engan says the London authorities garbled his letters to make a case against him.

That the New York police have raided a Chinese gambling house.

That the Dominion government decline to admit whisky in bond in packages of less than 100 gallons.

That no Eastern letters came yesterday.

That Chinese are rapidly possessing themselves of the Sandwich Islands.

That Jay Gould is selling out all his stock except the Western Union.

That Baron Werheim, the wealthiest manufacturer of Austria, and the celebrated fabricant of iron safes, is dead.

That the sale of boots and shoes at the B. C. boot and shoe store, directly opposite *The Colonist* office is marvellous. Cases are continually going in and coming out and the store is crowded day and night. *

That to accommodate those who desire to buy the best goods at the lowest prices the clearing out sale will be continued at the B. C. boot and shoe store for ten days longer. *

NEW WESTMINSTER.—Two men are in custody on a charge of robbing ex-Mayor Dickenson's safe....D. Milligan of the North Arm has imported a thoroughbred bull....E. A. Sharpe has been appointed constable at Port Moody.

PERSONAL.—Mr. Craigie Sharp, jr., who represents that progressive publication *The West Shore*, is in town.

THE steamer Princess Louise sails for New Westminster on Monday at 1 a.m.

PROVINCIAL LEGISLATIVE ASSEMBLY.

FOURTH PARLIAMENT.

FIRST SESSION.

EVENING SESSION.

SUMAS DYKING BILL.

Mr. Grant moved an amendment putting the whole matter under the supervision of the Chief Commissioner and taking it out of the hands of arbitrators entirely. He said it was putting the contractors in the ridiculous position of having two bosses. The amendment was rejected after considerable discussion, during which Mr. Dingwall created a laugh by saying he objected to the Chief Commissioner having the responsibility, as in two years' time he hoped to occupy that position himself. The clause passed in its original form.

Mr. Davie made a motion doing away with the back interest.

Mr. Drake claimed two days' notice, and in doing so, said he thought it best for the committee to rise and report progress and ask leave to sit again. Carried.

After reporting, the house went into committee on the Kootenay bill, Mr. Helgesen in the chair.

Mr. Allen's motion, respecting Chinese was taken up.

Mr. Wilson, in a very facetious way, called upon the leader of the opposition to give the amendment in the form he would like it.

Mr. Beaven said he would support the amendment as it stood.

Mr. Davie said if this bill was to be passed he did not believe in killing it by such a humbugging resolution as the present.

Mr. Pooley said that although as averse to Chinese labor as anyone in the house, he would not hamper the company by any such clause. Two railway bills had been passed this session and no such clause had been introduced in either, and he believed that this clause was proposed not for the object of curing the Chinese evil but to kill the bill. (No, no!)

Mr. Smithe advised the honorable member to withdraw the amendment as it was forcing the house to give a vote which may be construed into favoring Chinese labor.

Mr. Allen asked if any honorable member would move a more moderate amendment.

Mr. Smithe twitted the honorable leader of the opposition for his course in this matter, and said it had been suggested to him during recess that the millenium must be at hand when he and the honorable member for Lillooet were found voting together. The lion and the lamb lying down together—(laughter). (A voice, 'Which is the lamb?)" He said he took the same stand now as he had done in the Quesnelle river dam bill; it militated against the bill. A majority of the house considered it likely to produce good to the province; and a like clause had made the above mentioned bill a dead letter.

Mr. Allen said now his purpose had been served, with the leave of the house, he would withdraw his motion.

Mr. John said members were not sincere and not true to their pledges.

Mr. Semlin said far from gaining any point, he though it was a loss of self-respect to the house.

Mr. Orr moved an amendment preventing the sale of privileges granted in this act to Chinese.

Mr. Dunsmuir said the bill was not worth the paper it was written on; it was interfering with trade, which is unconstitutional. Besides the company would sell to another person and that person would sell to Chinese.

Mr. Galbraith said it was playing with the Chinese question. Chinese buy land from the government, get licenses to mine and get their crown grants, and yet we say the company cannot do so.

Mr. Pooley did not approve of the resolution any more than of the other.

Mr. Wilson, in a very good speech, said the motion was utterly useless. We might as well legislate against private families engaging a Chinese cook. We are trying to prevent a private corporation from doing what we ourselves are doing every day.

Mr. Galbraith said the hon. member for Yale was hardly justified in saying the hon. member for Lillooet had been playing with the house on the previous motion. It was common practice to elicit the feeling of the house and then to withdraw it. He remembered the hon. minister of finance moving a resolution and after speaking in favor of it for two hours was not allowed to withdraw it and voted against his own resolution.

Mr. Beaven would vote for the amendment.

Messrs. Armstrong and Duck would vote for the motion if they could see that it would do any good in getting rid of the Chinese. The latter gentleman said it was like a man killing his friend to get at his enemy and he was not going to be bamboozled by any such amendment. The amendment was lost.

13 to 8—Noes—Drake, Allen, Raybould, Cowan, John, McTavish, Orr and Beaven.

Mr. Cowan moved the insertion of a clause to prevent the company from diverting traffic to or connecting with the Northern Pacific or other railways in the United States.

Mr. Duck asked the chairman if the amendment was not out of order as interfering with trade and commerce.

After some discussion the amendment was ruled out of order.

Mr. Orr asked to introduce a clause compelling the company to register under the Joint Stock Company's Act.

Mr. Wilson said if they incorporated under the English act it was necessary; but if under the Provincial act, 1878, it was not necessary.

Mr. T. Davie thought it was a wise provision but required time for consideration and he moved the committee rise and report progress.

Mr. McTavish seconded.

Mr. Robson also moved an amendment defining the terms broad gauge and narrow gauge and providing that the gradients be proper and the work carried out generally in a proper shape.

After considerable discussion the amendments were laid over to be printed.

During the discussion Mr. Dunsmuir rated the hon. member for New Westminster district (Mr. Orr) for his factious opposition to the bill from beginning to end.

Mr. Davie objected to the hon. member for Nanaimo jumping down every hon. member's throat who happened to speak adversely to his view of a resolution.

Mr. Dunsmuir retorted rather sharply that no one had jumped down more throats this session than the hon. gentleman himself.

Hon. Mr. Smithe deprecated these wordy wars between hon. members but he attributed it to the lateness of the hour and the supposition that some members were sleepy and cross.

After a few forcible remarks directed at the member for Nanaimo by Mr. Allen the committee rose, reported progress and asked leave to sit again.

The house adjourned at 1:55 a.m. till Monday at 2 p.m. when amendments by Messrs. Orr and Robson will be laid before the house in printed form.

BAD OUTCOME OF A BRITISH COLUMBIA MARRIAGE.

Rushton v. Rushton.

In this suit the wife sought a divorce by reason of the cruelty and adultery of her husband, who was formerly employed by Messrs. Morgan & Co., bankers, of New Broad street. The potitioner was the daughter of a clergyman. There was no defence. Mrs. Rushton, the petitioner, said that she was married to the respondent in 1866 at British Columbia, at which time he was an accountant. In 1867 they came to London, and lived at Forest Hill. Her husband obtained a situation at Messrs. Morgan & Co.'s bankers, of New Broad street. There were four children of the marriage. She had reason to complain of his conduct, he having become addicted to drink. He was in the habit of staying out late at night, and behaved with cruelty towards her. On one occasion he tried to smother her with a pillow, and her nightdress was torn from the top to the bottom. He was frequently violent towards her, and had kicked her out of bed. He had taken her by the throat and knocked her over the chair. On one occasion he broke the latchkey in the door, and she went to open the door. He then took her by the throat and threatened her. He then threw her to the ground. After that she went home to her parents. Subsequently she found out that her husband had sold up the furniture, and she had not seen him since. He was always a good deal away from home. He was generally sleeping out Thursdays, stating that he had stayed with Mr. Owen, a fellow clerk. Mr. Morgan, a solicitor, corroborated the cruelty. On one occasion he was knocked up at two o'clock in the morning by the petitioner, who at the time had her nightdress on and a dressing gown thrown over it. She was intensely agitated, and begged to be let in, as she was afraid of her husband. Witness went to the house and remonstrated with the respondent, who was a man of most violent temper. A messenger employed at the bank in question gave evidence to the effect that the respondent was frequently with Miss Teiss, who formerly kept a confectionery shop opposite. He and some of the clerks had seen them together under suspicious circumstances. Further evidence was given that Mr. Rushton and Miss Teiss were constantly together at the Crystal Palace, she being in the habit of singing in the choir there, and that they lived together at Croydon. His lordship granted a decree nisi, with costs, and custody of the children.

From Langley Prairie.

(Columbian.)

Rev. Mr. Dunn, having intimated from the pulpit some weeks ago that he intended to leave Langley, a deputation consisting of Messrs. Robert McKee, James Mackie, and Adam Innes waited upon him on Friday evening with a requisition signed with great unanimity, urging him to remain. The following is a copy of the requisition: "To the Rev. Alexander Dunn, of Langley: Rev. and Dear Sir, We the members, adherents and other friends of the Presbyterian Church of Langley, Maple Ridge and Mud Bay, have heard with deep regret your intention of severing your connection with us. It is our earnest desire that you would reconsider your resolution to leave. Your uprightness, integrity and purity of character have secured our esteem and confidence, and we pray that you may be long spared to continue your labors for our Master, that He may sustain you in your work and own and bless it more and more." The requisition was signed by 101 adults, chiefly heads of families. Mr. Dunn kindly consented to give the above his earnest consideration. It is now nearly eight years since he cast in his lot amongst us as a minister of the gospel. His pulpit ministrations, which always evince careful preparation and diligent study of the Scriptures, and his unselfish disposition, have made him the friend not only of the Presbyterians but also of other denominations.

CONSUL FRANCIS ON THE COAST FISHERIES.—Mr. Consul Francis of this city reports to the state department at Washington that the twenty salmon canneries of this province aggregated, for the season of 1882, 235,000 cases, valued at $1,175,000. Over 9000 cases were sent to Canada and Australia, via San Francisco. Francis says the salmon business on the coast of British Columbia and Alaska territory can be prosecuted with profit to almost an unlimited extent. It is established beyond a doubt that the coast of Alaska, should canned or packed salmon meet in the future a considerable demand in the States, could supply the same from this one of its inexhaustible resources.

THE Oregon Iron and Steel Company of Albina, near Portland, are about to erect rolling mills. The iron used will be obtained at Oswego where there is an unlimited deposit. The company intend to construct a large iron ship and have her off the stocks in six months.

FROM NEW WESTMINSTER.—The steamer Enterprise arrived yesterday afternoon from New Westminster with passengers and freight, among the latter being about 81 head of cattle from Cache Creek for various butchers in town, including Goodacre & Dooley, John Parker and Thomas Porter.

THE BLUE RIBBON.—A telegram has been received from Col. Hawkins to the effect that he lately held a very successful meeting at Moodyville, and was to hold meetings at Granville on Saturday and Monday evenings.

THE ladies' conversazione committee will give an entertainment on Thursday evening, April 12th, in the Central Hall, View street, at eight o'clock. A special attraction is in preparation. Admission 25 cents. *

PERSONAL.—Mr. Paul Shultz, of Portland, Mr. Onderdonk and Mr. C. Morton of the Mainland, and Mr. D. Kidd, of Hamilton, were among the arrivals yesterday.

FROM THE SOUND.—The steamer North Pacific arrived from the Sound yesterday at noon bringing about 70 passengers. Among the freight were 400 sheep for Mr. John Parker and Van Volkenburgh & Co.

POLICE COURT.—Yesterday morning there was no business in the police court.

The Kootenay Bill.

A public meeting was convened at the city hall last evening to consider the Kootenay bill.

Mr. Allen, M. P. P., moved the mayor into the chair and his worship bespoke for all speakers an impartial hearing.

Mr. T. Russell was elected secretary.

Each speaker was limited to fifteen minutes.

The chairman called on Mr. Allen, M. P. P., to address the meeting.

Mr. Allen attacked the bill as dangerous and unprecedented. The bill had been amended and altered until it did not resemble the bill as at first introduced at all. The promoters had failed to convince any unbiased person that they meant to do anything. The bill always said the company *may* do; and it always said the government *must*. The promoters of the bill thought we were a set of hoodlums (oh, oh,) when they first came here. The mines of Kootenay were rich. The original discoverer's claim was jumped by promoters of this bill while he was away to get medicine. These mines were worth $50,000,000 at least. If the cream of the country was to be given away, give it to the men who had spent their lives here (applause). The government agent at Kootenay had acted as the agent for these capitalists.

Mr. Allen retired amid applause.

Mr. Beaven was next called on; but wanted to hear some of the originators of the meeting before he spoke.

Mr. Todd moved to hear those who opposed the bill first. Carried.

Many names were called but for a long time no one responded. At last Mr. Theo Davie, who was vociferously cheered, took the stand. He said it was highly desirable that the people should be informed as to this bill and he urged upon the meeting to insist on Mr. Beaven, as senior member, being heard.

A voice—Are the promoters of this meeting afraid to speak?

Mr. Beaven again came forward. He said the original bill had been greatly modified, and with one or two exceptions it was in a satisfactory state. The cry had always been for capital to help develop our resources. Kootenay was isolated. Its trade went to the American territory. Valuable lead mines had been found there If we were not careful the trade of those mines would go to swell the earnings of the N. P. R. R. What particular benefit would that be to British Columbians? There was a great probability of the Canadian Pacific railroad coming through Kicking Horse Pass. It was to get this trade into British Columbia that the railway of Ainsworth & Co. was to be built and the line of steamers run. Without that scheme the mines would be of no value to the province. He asked if he would be worthy of their confidence if he opposed this scheme? He did not think the land grant too large. (Applause.) He had never yet heard a good argument why this bill should not be passed. (Cries of "Time," and applause.)

Mr. Theo. Davie said that although differing with the speaker who had preceded him, on some points he was in accord. The lead deposits of Kootenay are believed to be rich; but they are undeveloped. He knew very little of Kootenay. The promoters of this bill asked a very important franchise. If the project were carried out it might be of great advantage to the country. The bill originally asked too much. It had been before the house many days and there was a general disposition on the part of the members to remodel and improve the bill. The company asked for 1,500,000 acres. They get 750,000 acres. They asked for precious metals. They get none and free miners can go on the land and work the mines. Mr. Smithe and Mr. Drake had been instrumental in improving the bill. With the development of the country he was in favor; but he was determined, so far as he could, to see that the public interests were conserved. (Cheers.) He would not begrudge the promoters the money they might make out of this scheme, so long as the general interests of the country were protected. The bill in its first shape was outrageous; but he was satisfied that as safeguards were introduced the bill would become a tolerably good one. In conclusion he said the government would allow no bill to become law in this province that would be disastrous to it. (Loud cheers.)

Mr. Orr came forward amid loud cheers, He said the bill at first was a great enormity. It had been shorn of some of its objectionable features; but it was still not one that should be passed by the legislature. (Applause.) He knew the country well and described it as one of the richest sections in British Columbia. The promoters of the scheme had taken up land that belonged to the original discoverers. The railway would not benefit this part of the country to the value of a match. (Applause.) They proposed to build a wagon road through Eagle Pass, and they wanted 60,000 acres of land for doing it. For the construction of a line of railroad 45 miles long they wanted 750,000 acres of land in perpetuity. The chances were that the C. P. R. R. would never come over that range of mountains; but if it did that company would build its own line to connect with Columbia lakes. The promoters of this bill asked for a land subsidy for putting a steamboat on a navigable river. The men who asked these privileges required to be well looked after. (Cheers.) He intended, if he could, to improve the bill still further. There was not a single clause in the bill that bound the company to anything. He believed these gentlemen wanted to get the franchise, place it on the market and that would be the last the country would see of them. (Cheers.)

Mr. C. Booth said if he were in the house he would endeavor to put it in such a shape that it would be just to the promoters and to the country. (Cheers.)

Mr. Allen moved that this meeting is of opinion that the amount of land asked by the promoters of the Kootenay Railway and Transportation Co.'s bill is excessive and would recommend that said bill be laid over until the meeting of the legislature next year; and would further request that the government in no way dispose of the lands along the Kootenay Lake except in strict accordance with the mining act now in force.

Mr. Carey Seconded.

Major Downie, who was received with much applause, said he was opposed to the bill. He called on the legislature to consider well what they were about. The Chinese evil was the great curse.

Mr. T. B. Humphreys, who was very well received, said he knew of no similar proposition to this on the continent. He had always been in favor of capital being brought into this country. Foreign capital had done wonders for California; but some of the features of this bill were unpleasant. The amount of land asked was too large. The bill could be put in a good shape and these gentlemen should be required to accept safeguards. Mr. Carey said Mr. Orr had given them an excellent idea of the bill which proposed to give away 1200 square miles of Kootenay for 45 miles of railway. The bill was permissive as far as the company was concerned, but it was obligatory when the government came in. He called on the people to instruct their representatives to vote against this measure.

Mr. Todd moved in amendment that inasmuch as the bill now before the house is in an incomplete state and having confidence in our legislature doing what is right in the premises, we therefore deem it would be premature for this meeting to pronounce for or against the scheme until such time as the bill is complete.

The mover supported the amendment in a few forcible remarks.

Mr. Robert Ward seconded the amendment.

The amendment was lost and the original resolution carried.

Meeting adjourned till Monday evening at 7½ o'clock.

Our Daily Bread.

Heavy and sour bread and biscuit have a vast influence through the disgestive organs upon the measure of health we enjoy. How important to our present happiness and future usefulness the blessings of good health and a sound constitution are, we can only realize when we have lost them, and when it is too late to repair the damage. And yet, notwithstanding these facts, thousands of persons in our own city daily jeopardize not only their health, but their lives, and the health and lives of others, by using articles in the preparation of their food the purity and healthfulness of which they know nothing. Perhaps a few cents may have been saved, or it may have been more convenient to obtain the articles used, and the housekeeper takes the responsibility and possibly may never know the mishief that has been wrought. Pater familias may have spells of headache, Johnny may lose his appetite, Susie may look pale; if so, the true cause is rarely suspected. The weather, the lack of out-door air, or some other cause, is given, and the unwholesome, poisonous system of adulterated food goes on. Next to the flour, which should be of good, sound wheat and not ground too fine, the yeast or baking powder, which furnishes the rising properties, is of the greatest importance, and of the two we prefer baking powder, and *always use the Royal*, as we thereby retain the original properties of the wheat no fermentation taking place. The action of the Royal Baking Powder upon the dough is simply to swell it and form little cells through every part. These cells are filled with carbonic acid gas, which passes off during the process of baking.

The Royal is made from pure grape acid, and it is the action of this acid upon highly carbonized bicarbonate of soda that generates the gas alluded to; and these ingredients are so pure and so perfectly fitted, tested and adapted to each other, that the action is mild and permanent, and is continued during the whole time of baking, and no residue of poisonous ingredients remains to undermine the health, no heavy biscuits, no sour bread, but if the directions are followed, every article prepared with the Royal Baking Powder will be found sweet and wholesome.

County Court.

(Before Chief Justice Sir Mathew Begbie.)

Bank of B. C. *vs.* W. C. Bryant—In judgment summons on $140.80. Mr. W. K. Bull appeared for the plaintiffs. The defendant represented that having a family of six children to support at the present time he was unable to pay any amount in liquidation; he was indebted to the man in his employ some $1000, and although some $100 had been received for sale of horse "Bryan O'Lynn" it went in payment of amount owing to his man; moreover that he had made great losses by bad debts.

The chief justice pointed out those were no losses to him, but to his creditors. The conduct of the defendant was anything but satisfactory, and he ordered payment every calendar month of a sum not exceeding $20, contingent upon his making over $60 profit during such period.

The case of Lover *vs.* Stevens for a suit for $12.50 for goods sold and delivered, was postponed till next court.

THE HUDSON BAY CO.'S WHARF.—The old sheds on the Hudson Bay Company's wharf, immediately below Wharf street, which have so long been in a dilapidated condition and threatened to succumb on their own account, have at last been taken down, to make room for the new buildings. The shed on the Enterprise wharf is being fitted with moveable partitions extending across it for the purpose of confining cattle on landing from the steamers.

RESIGNATION.—Mr. Maclure, the efficient money order clerk at the Victoria postoffice, has resigned in consequence of insufficient pay. The public will regret to hear of this step; how can the Dominion government expect to retain efficient clerks in responsible positions at $33 33½ per month?

KOOTENAY BILL.—The *Columbian* sees good in the amended Kootenay bill and thinks it should pass in its new and less objectionable form.

ARREST.—Last evening a man was arrested on a charge of stealing an umbrella. It is generally believed that stealing umbrellas is not larceny.

THEATRE ROYAL.—Last evening "Uncle Tom's Cabin" was repeated for the last time. On Monday evening "All is not Gold that Glitters," will be produced.

"SPECIAL" BY PACIFIC RAILWAY.

SHEARS & PARTRIDGE have this day marked off their first invoice of TRIMMED MILLINERY, HATS and BONNETS; also, NEW SHAPES and STYLES in untrimmed Straw Goods.

MANTLES—103 Fashionable Mantles to select from.

The above goods being a special line by railway, customers can rely upon their being THIS YEAR'S FASHION and at BOTTOM PRICES.

LONDON HOUSE,

Victoria, April 5, 1883.

A PRAISEWORTHY OBJECT.

"None name it but to praise." This is true of that unsurpassed remedy, "Hagyard's Yellow Oil." It cures pain and inflammation, whether from sprain, bruise, or frost-bite, lame back, rheumatism, neuralgia, sore throat, croup, deafness, and for internal and external use. (31)

A SURE cure for dyspepsia. The Oregon BLOOD PURIFIER. Use before meals as directed. *

Eastern States.

SAN FRANCISCO, April 4.—The local staff of the Chinese *Commercial News*, consisting of a reporter named Chow Yuen, struck for wages recently, with the result that the editor, Kim Wing, received a black eye and numerous minor injuries. The trouble originated from a misunderstanding as to the perquisites of the local staff. In addition to the regular salary of $1 a day, the editor proposed calling on the Central Pacific railroad for an advertisement, but as this was previously done by the staff, he refused to allow any commission to the latter, whereupon the editor was thrown down stairs and beaten.

OIL CITY, Pa., April 4.—The people of this section are much excited over the finding of the body of John Pierce drowned at Titusville during the great flood. Vigorous search had been made for the body, and rewards offered, but all to no purpose. Last week a Methodist clergyman named Hoover dreamed of the spot where the body was to be found, and it impressed him so, that he spoke of it to many persons, and the local papers published the matter. Yesterday morning the boy's father and the clergyman started to hunt for the body, and a mile and a half below Titusville found it, half buried in the sand at the foot of a clump of willow bushes.

PROVIDENCE, R. I. April 4.—Bristol, the home of Bourn, gave Bourn 746, Sprague 113, Cuttter 11. East Providence gave Bourn 75 majority. The indications are that Bourn will have 2000 majority over Sprague and Cutter.

Ex-President Hayes at Church.

The Concord (N. H) *Monitor* prints a private letter written with a free hand by a citizen of that town who is temporarily staying in Fremont, Ohio, in which the writer says: "I went to the church where the ex-president attends, and was fortunate in seeing him at his devotions. He looked as if he was on good terms with himself and showed few indications of age. He is grayer than he was four years ago, but you and I are in the same boat in that respect. The ex-president came in with his wife and daughter. He evidently don't care much about his dress. He had an old slouch hat in his hand and around his neck a red bandanna was tied, but his coat was the worst. It was several degrees too large in the back, and fitted like an ox yoke. It was probably the hasty effort of some local tailor. He walks like a countryman, with a loose swinging gait, and his boots made his picture all the more bucolic. His boots cover some space, and I noticed he had a crack in one of them. He 'toes out' and is in every respect an out-and-out 'Buckeye.' When he went out of church I followed him to observe more of his characteristics. He stopped and spoke a few words to a couple of countrymen, whose apparel gave the impression that they copied the exchief magistrate in the matter of clothes. He was affable, and did considerable bowing. Evidently his acquaintances do not take much stock in the ugly rumors concerning his election. As I was going out he even bade me good morning, and said something about it being a blustering day. I was pleased at his gracious remark, and merely added, 'Yes, sir.' He has a magnificent place, and his house sets back in a large grove, and contains many acres, 60 or 80, I should say. I was disappointed in Rutherford H.'s appearance—he would pass current in Concord for a London democrat. He ought to have a new hat, a new suit of clothes and a new pair of boots.

Eastern Canada.

The Marquis of Lorne—The Railway.

OTTAWA, April 6.—The Marquis of Lorne expresses a desire that his term be extended another year.

MONTREAL, April 6.—The Canadian Pacific Railroad syndicate has completed arrangements for the road over the Thunder Bay branch of the Canadian Pacific Railroad by May 1st, instead of July 1st, up to which latter date will be claimed by the contractors.

California.

SAN FRANCISCO, April 5—Jno E. Ross, district engineer of the fire department, who was so terribly burned at the Palace hotel gas explosion, died at an early hour this morning, the immediate cause being suffocation. It is not expected that any other fatal cases will follow. The patients are reported improving, although some of them are swollen beyond recognition.

The jury decided that Verona Baldwin is crazy and she is at liberty.

IT IS SAID that Mr. Gladstone, as Chancellor of the Exchequer, used to make it his business, in days when he was not so universally known by sight, to enter common public houses in many parts of the town and call for a glass of beer, in order to test the working of the excise laws. Canadian ministers have been known to test the working of the excise laws in a similar fashion.

BIG DINNERS.

Over indulgence in eating and drinking is generally followed by headaches, dullness, languor and other disagreeable sensations. Anyone finding himself in that unfortunate state will obtain relief most readily by taking Syrup of Figs.—Langley & Co., Agents for Victoria. 16

DR. COOPER'S VEGETABLE LIVER-WORT AND KIDNEY CURE

Has no equal as a safe remedy for all diseases of the liver, kidneys and urinary organs. Over 250,000 bottles sold during 1882. Price $1 a bottle. MOORE & Co., sole agents. dw

JOHN JEFFREY & Co.'s XXX Edinburgh Ale and Walker's Warrington XXX always on draught at the OCCIDENTAL, corner Wharf and Johnson streets. *

A GREAT vegetable tonic for delicate females, is Pfunder's Oregon BLOOD PURIFIER. *

A SECRET FOR THE LADIES.

The great secret of beauty is pure blood. Eruptions and all blotches that disfigure the face, may be quickly cured by Burdock Blood Bitters. Annie Heath, of Portland, certifies that she was cured by this remedy, after suffering for two years. (32)

A REMARKABLE FACT.

It is a remarkable fact that W. A. Edgers, of Frankville, who was so far gone with liver and kidney complaint that his life was despaired of, was cured with four bottles of Burdock Blood Bitters. At one time he lay a fortnight without an operation of the bowels. (36)

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in Cans.* ROYAL BAKING POWDER Co., 106 Wall-st., N.Y. se8eiwly
